The Aqueduct waterlily

Récits et contes du bord de l'eau

*To my children
Eva, Istvan, Zoltan*

White Monday
After school
I enjoy going to
the Aqueduct garden

Blue Tuesday
It is raining.
I am alone
by the pond with a stick

The rain is making circles
on the water.
It's fun !

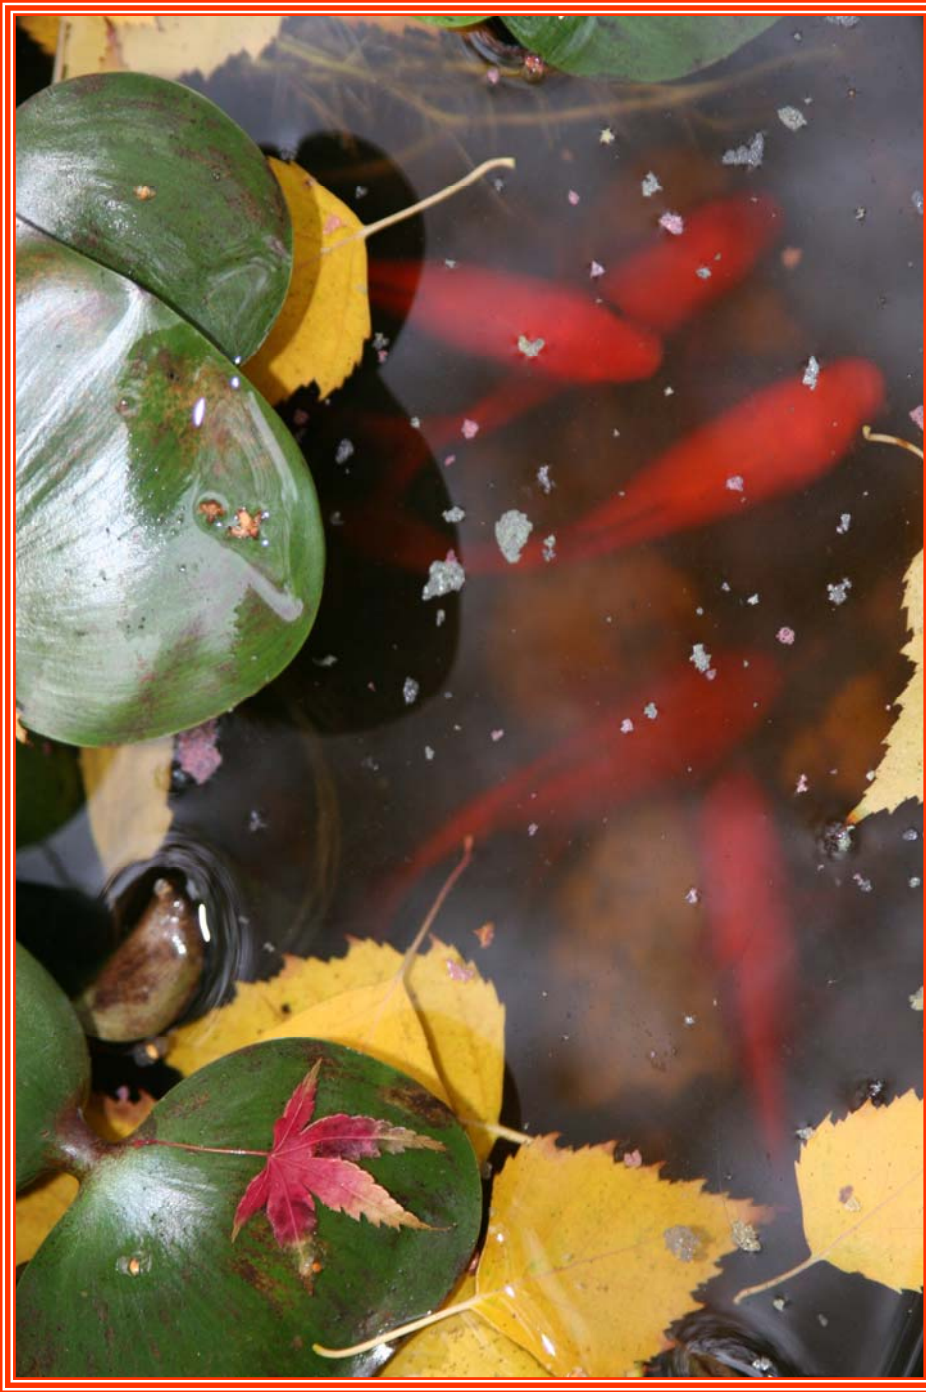

No butterflies...

Yellow Wednesday, no school.
I have plenty of time
The water is clear
You can see round pebbles
on the bottom.

Green Thursday.
Today, the sun is
shining.
Look! A bee!
What is it doing?
Here is my friend Pieride
Where is his girl friend?

Grey Friday.
I am sad
Tomorrow is Saturday.
That means holiday up
to Sunday.
My gold fish
cannot come along with us.

The temptation is great to pour
one's aquarium
into a public water spot.

Here, at least, you needn't
change the water !

Do you know
that if **gold** fish
invade the pond,
not only will the water lilies find it
hard to grow there,
but many tiny invisible animals
will disappear.

The pond is an attractive place !
